Director of Public Works

LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29, MALIBU EMERGENCY REPAIR OF A 30-INCH-DIAMETER TRANSMISSION WATER MAIN SOUTH MAINTENANCE AREA

On July 1, 2008, the Board approved contracts with five firms to provide as-needed, on-call emergency repair services for the Los Angeles County Waterworks Districts. As part of the approval, we committed to reporting to the Board all emergency repairs carried out under these contracts.

On April 2, 2013, a leak occurred in a 30-inch-diameter transmission water main at 19252 Pacific Coast Highway in Malibu. Williams Pipeline Contractors, Inc., one of the five firms contracted to provide emergency repair services, was called to assist the Los Angeles County Waterworks District No. 29, Malibu, in repairing the leak. We completed the repair work on April 3, 2013, at an estimated cost of \$30,000.

If you have any questions, please call me or your staff may contact Mark Pestrella at (626) 458-4001.
